### **Corporate**

### **One World Weddings™: A Celebration of Diversity**

Because of the demand for multi-cultural events, we have created a division of Entertaining Company known as One World Weddings™ – a creative vehicle for implementing elegant, eclectic and meaningful wedding celebrations for the growing number of couples who marry outside of ethnic and cultural traditions. "One World Weddings™ is Entertaining Company's approach to contemporary marriage and commitment ceremonies," says Wendy Pashman. As we all meet people from different backgrounds, travel the globe, prepare ethnic food at home and dance to international beats, we want to express our unique point of view with our wedding guests." Entertaining Company developed One World Weddings™ to capture every couple's dream of a celebration that perfectly characterizes their special union.

That's where Entertaining Company comes in. At Entertaining Company, we consider ourselves to be cultural anthropologists—insightfully creating unique event experiences that are distinctly reflective of each couples' personality.

Our innate understating of cultural nuance coupled with our intuition of tomorrow's trends will both please and delight guests of all ages and backgrounds.

Entertaining Company has developed a sterling reputation for the extraordinary in an event world awash with the traditional and expected. An expert in the art of celebration, Entertaining Company is inspired by the cultures and revelry from around the globe. Entertaining Company events are a marriage of old world enchantment and new world sophistication. They strike a unique chord in the marketplace by creating extraordinary menus that are complimented by highly-designed settings, creating full-sensory event experiences that transport guests to a bold world of celebration.
