Eating a meal is more than just taking nourishment for the body; it is a social time for people to share their lives together. In essence, it is nourishment for the soul. At Catering by Michaels, we believe that no matter what the occasion, food should be made special to reflect the type of people with whom we share it. As one of the largest and most acclaimed caterers in the Chicagoland area, what makes us truly stand out is the big effort we put into the “smaller” things: one-on-one service, attention to details, and a dedication to quality that is fierce and reflected in everything we do.

We began serving customers in 1980 with a humble foundation of grilling hot dogs and flipping hamburgers. Through our commitment to excellence and a solid reputation for fine cuisine built upon word of mouth, we have since expanded into the multi-tiered business we are today, offering full-service custom catering, drop-off catering, and large format corporate picnics.

At Catering by Michael’s, we provide a diverse and unique range of catering services designed to serve any type of function. Our event capabilities cover the entire spectrum – from social to corporate, casual to formal. Our repertoire includes elegant sit-down dinners, cocktail receptions, company picnics, creative themed events and at-home parties of all kinds. We are consistently working to enhance our menus and incorporate as many seasonal and local ingredients as possible. Whether Catering by Michael’s is serving for a sophisticated corporate function, a cozy social gathering, or dropping food off for a business lunch, the assurance of quality is the one constant that can be counted on.
